Description	
<p>This issue was brought up like a month ago, yet the problem still occurs. I have the problem which many others have aswell, I'm stuck, I have to start over because I can't turn in the main quest, nothing happens when I press E.</p> <p>My question now is, how far have you come, when is it worth trying to play the game again? Right now I wont try to start over, hoping it will work then have to do it all again.</p>

Hello Bordman,
We are still working on the issue. I hope that in next patch it will be fixed.
But I am not really able to tell when the next patch is going to be released.
