- Assignee set to Miroslav Louma

#2 - 11/15/2016 12:12 PM - Miroslav Louma

- Status changed from New to Investigating

Unfortunately, this error message is not really helpful, it just indicates that an error has occurred. We need to have a look at the launcher log file (system temporary directory, **GameLauncher** subdirectory)

<https://support.kingdomcomerpg.com/issues/371#note-3>

The log file should contain information about underlying error (which was not shown in error message displayed to the user).
